Cushion tapes

BS MOUNT

The BiesSse® range of cushion adhesive tapes has been developed to meet the demands of **high quality flexo printing**.

The products are characterised by a **foam carriers of different compressibilities and thicknesses**, combined with different adhesive types and liners.

The innovative formulation of the highly resilient BiesSse® foam ensures maximum printing quality, even with the most technically advanced and complex designs.

The BiesSse® BS MOUNT range is used in **flexo printing of labels, flexible packaging, and cardboard (pre-print)**. It consists of **7 adhesive combinations, 2 thicknesses range and 10 compressibilities**, identified by specific colours to guide the user in choosing the most suitable product.

Product advantages:

- High resilience foam
- High adhesion and clean removal
- High performance embossed liner
- Excellent printing results at very high speed and long print runs

BS MOUNT **TT**

The BiesSse® range of rigid adhesive tapes, among the widest on the market, is ideal for mounting printing plates on polyester carriers for the post-print sector. It is suitable for different print jobs, such as **label printing** and **flexible packaging printing**.

BS FIRM

The BiesSse® BS FIRM range **meets all adhesion and thickness requirements**. The defining tape features are characterised by the construction based on a **rigid PVC film carrier** of various thicknesses, combined with different adhesives and liners.

Soft tapes

The BiesSse® range of soft adhesive tapes offers competitive cost-print quality ratio. Thanks to their slightly more elastic structure, these tapes **provide better printing performance** than rigid adhesive tapes. They are characterised by a construction based on a **soft carrier of various types and thickness** combined with different adhesives and liners.

BS GRAFIX

BS GRAFIX is characterised by a plastic film carrier and a **natural rubber adhesive** (wet style), with a balanced medium-high adhesion level on both sides. The application mainly refers to **flexible packaging printing and corrugated cardboard pre-printing**.

BS FLEX

The BS FLEX series is characterised by its **fabric carrier** and **natural rubber adhesive** (wet style), with a balanced medium-high adhesion level on both sides. This series is mainly used for **flexographic corrugated board post-printing**.
